

**Washington State Transportation Commission**  
**WSF Winter Ferry Performance – FROG Survey**  
**April 2014**  
**Report**

# Preface

Starting in 2010, the Washington State Transportation Commission (WSTC) changed the process for how research is conducted regarding Washington State Ferries (WSF). Before 2010, stand-alone research projects were executed, but some of the issues facing ferry operations are of a longitudinal nature (changes over time). The decision was therefore made to create the Ferry Riders' Opinion Group (FROG) and the Voice of Washington State (VOWS). FROG is an online community where ferry riders have an ongoing opportunity to weigh in on ferry issues through surveys and quick polls (single questions). VOWS is an online community where any Washington resident has a similar opportunity to weigh in on statewide and regional transportation issues.

The FROG research initiative in 2014 consists of the following main phases:

- **Winter Customer Survey Study (target audience: commuter riders) via FROG**
- Winter Policy Study (target audience: commuter riders) via FROG
- Freight Survey (target audience: WSF freight customers) via executive telephone survey
- General Market Assessment Survey (target audience: Puget Sound (PS) basin and non-PS residents (non-PS) via VOWS
- Summer On-board Recreational Survey (target audience: Out of state riders)
- Summer Performance, Recreational, and Policy Study (target audience: commuter and social/recreational riders)

The focus of this report is the Winter Ferry Performance Study

EMC Project/Document #: 14-5088

# Overall Satisfaction

Total Satisfaction with WSF has increased to above 2010 levels, with Dissatisfaction remaining constant, indicating that those who moved to a more neutral position between 2010 and 2012, have moved back to a positive position.

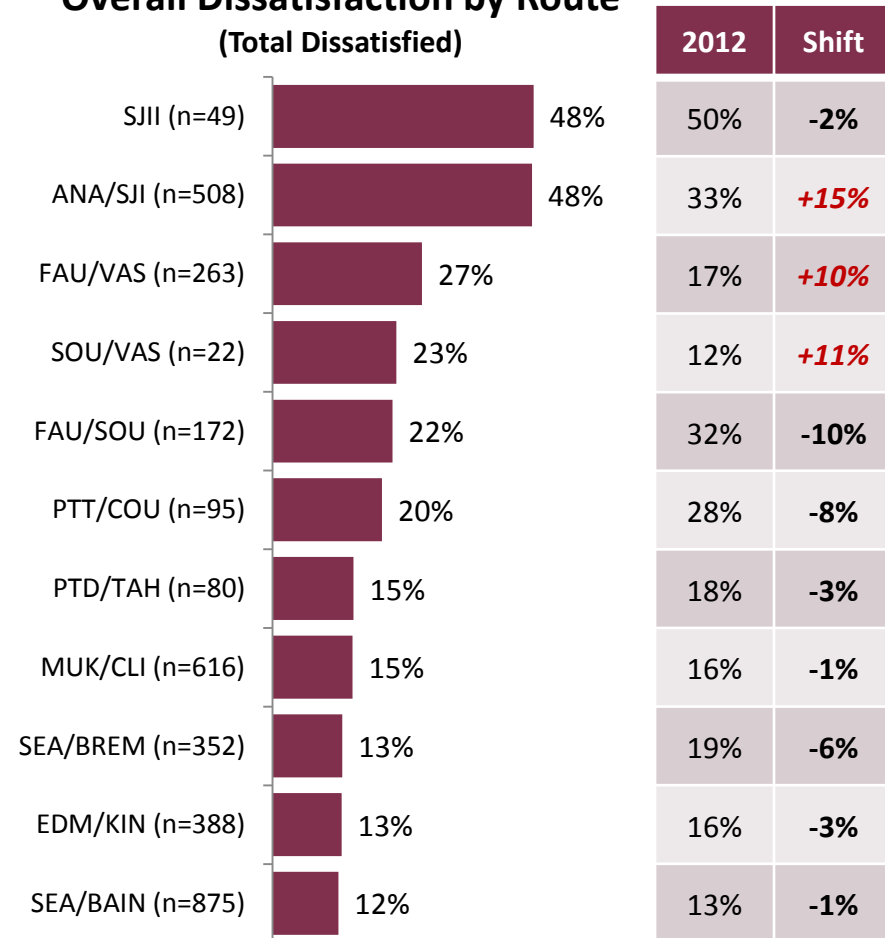

## Overall Satisfaction with WSF

Only ratings of satisfaction (4-5) or dissatisfaction (1-2) are shown, Ratings of 3 or don't know are not shown.

The **bold** percentages represents the corresponding total dis/satisfaction

## Overall Dissatisfaction by Route (Total Dissatisfied)

Q1. For this survey, we are interested in your experiences and opinions of Washington State Ferries during the Winter Schedule period, January 3<sup>rd</sup>-March 27<sup>th</sup>. All things considered, how satisfied are you with the service provided by Washington State Ferries?

# Satisfaction by Attribute - Tracking

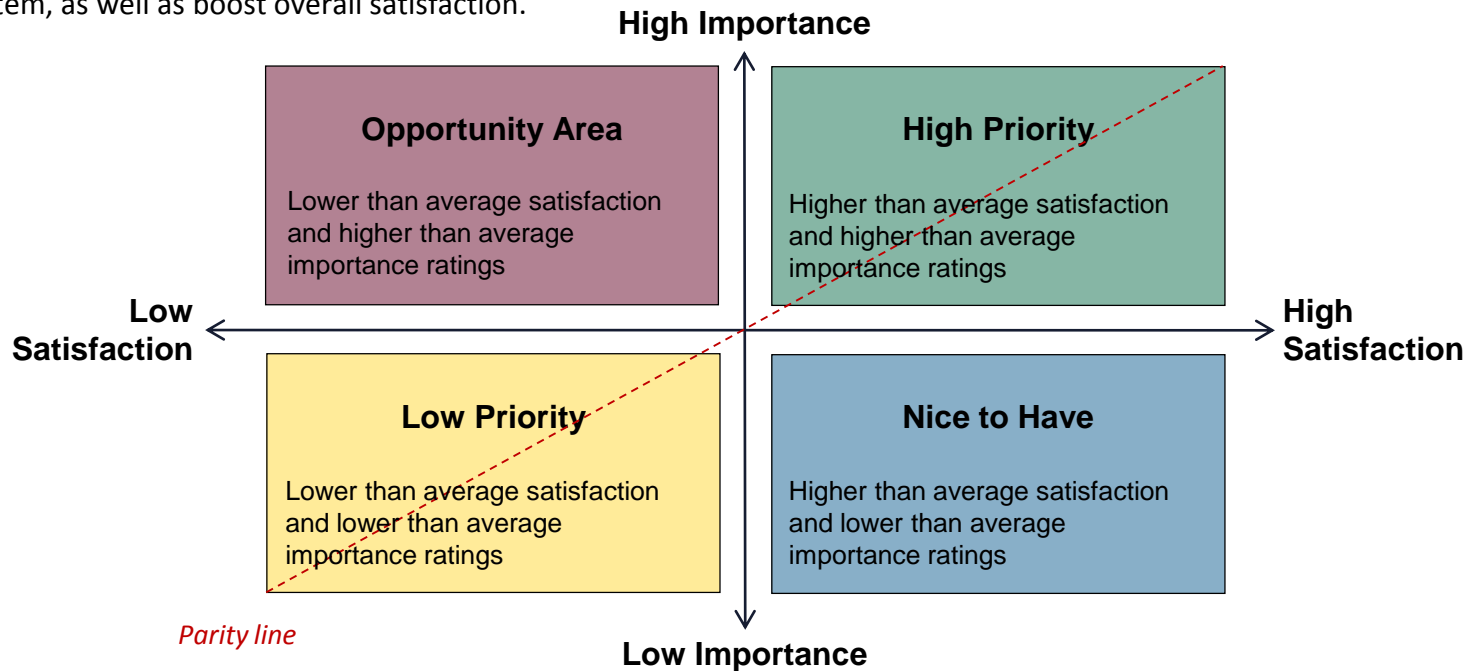

- ▶ Almost all attributes have seen an decrease in total dissatisfaction from 2012
  - ❖ The following table present an overview of the following slides containing the quad chart analysis
  - ❖ The following table shows the total dissatisfaction (1-2) of each individual attribute, relative to the 2012 dissatisfaction.
    - The **Difference** is 2014 dissatisfaction minus 2012 dissatisfaction

# Gap Analysis

- ❖ The following slides present quadrant charts outlining the relative importance of each ferry attribute and the relative satisfaction of each attribute.
  - The two sample sizes shown on each chart represent the maximum and minimum number of riders rating any given attribute, due to embedded skip logic.
- ❖ Each quad chart consists of four quadrants:
  - Opportunity area (red) | High priority (green) | Nice to have (blue) | Low priority (yellow)
- ❖ Each quad chart is also overlaid with a parity line.
  - The parity line represents where importance and satisfaction is equal, and identifies the ferry attributes with the greatest disparity between satisfaction and importance.
- ❖ Attributes considered highly important, but with low satisfaction (performance), indicate opportunity areas for improvement by WSF. Increasing awareness of these important attributes may help promote more positive impressions of the ferry system, as well as boost overall satisfaction.

**Bainbridge** - I don't like the passenger tunnel at Bainbridge. I hate the opaque windows and always use the outside entrance is possible.

**Bainbridge** - Like a cattle call. double bridges or load points would be beneficial for peaks.

**Bremerton** - System is crude, slow, and sometimes dangerous

**Clinton** - Staggered loading (loading passengers before, as well as after cars) is inefficient, and adds to schedule problems.

**Southworth** - Need to have it's own ramp, like Bremerton, Seattle, Kingston or Edmonds. the walk on and off where the cars are is terrible.

**Friday Harbor** - The gate operator forgot to open until after the cars were loaded.

<b>Seattle</b> - Even when boats are late, there is no obvious attempt made to move more quickly.
<b>Bainbridge</b> - The procedures are inconsistent.
<b>Bainbridge</b> - They could move much faster to expedite the vehicles.
<b>Kingston</b> - Takes too long
<b>Kingston</b> - Loading / unloading crews are short tempered, and borderline rude. their hand signals are unfamiliar to many. procedures are not the same, and the same procedures are not followed from day to day.
<b>Fauntleroy</b> - Passenger unloading slows the process and with busses it is unsafe
<b>Clinton</b> - I generally equate efficiency with fairness, which means 'first on, first off'. this rarely happens.
<b>Mukilteo</b> - The stop light for the cars leaving the ferry comes on way to often to allow local traffic to go.
<b>Bremerton</b> - Not following 'first on first off'

<b>Tacoma:</b> It's a bad sign when i remember one or two crew because they were actually friendly and polite. the vast majority of the time the crew just looks 'through' you as a passenger or is outright rude.
<b>Tacoma:</b> I have a wheelchair van and communication among loading employees is spotty and loading arrangement varies.
<b>Tillikum:</b> The friendliness of the deck hands has significantly declined over the years. most don't seem to want to do their jobs and interact with customers.
<b>Yakima:</b> In general the crews show very lazy work ethic. there are a few exceptions but most retire to their cabin hideouts while the boat is underway.
<b>Spokane:</b> They either can not answer a question or can't be found to ask that question to.
<b>Kittitas:</b> I was told that the reason the ferry left a row of cars behind, even though they were there on time, was that the ferry was late, and didn't i realize there would be another ferry for them in a very curt manner.

Top 5 Unsatisfactory Routes	Example of Verbatim Complaints (both arrivals and departures)
ANA/ SJI (n=153) 13%	The ferries keep breaking down. Hopefully there will be funding someday, somehow for newer ferries. Despite your best efforts, these are an embarrassment to our state and country.
FAU/ VAS (n=57) 12%	Provide adequate crew staffing
FAU/ SOU (n=38) 11%	More dead time between turnaround runs so that if a ferry is behind ached, it has a chance to catch up
INTER SJI (n=58) 10%	Hire more crew to alleviated cancellations due to 'crewing problems.' Fix the damn boats to lessen the number of cancelled runs!
SEA/BAIN (n=43) 10%	Ensure adequate crew size for every trip. Late departures jeopardize my job! adequate crew and a commitment to punctuality
	Allow enough time in the schedule to load/unload. The 9:40am eastbound is habitually at least 10 minutes late. You should readjust the schedule to something you can actually meet on a regular basis.

Top 5 Unsatisfactory Routes	Example of Verbatim Complaints
ANA/ SJI (n=147) 13%	Be more efficient and stop letting broken boats ruin our lives with missed late or not running ferries
FAU/ VAS (n=50) 12%	Have more qualified crew available, have better options for dealing with medical emergencies when there are only two boats running to start with, and have boats that can keep up the speed needed to maintain the schedule.
INTR SJI (n=147) 10%	I'm not sure why ferries are late. That is part of the problem, is that we're not notified what is going on. We sit in line and wait and there's no announcement like 'the ferry is running 20 minutes late due to...'
FAU/ SOU (n=37) 10%	More dead time between turnaround runs so that if a ferry is behind ached, it has a chance to catch up
SEA/ BAIN (n=31) 9%	replace the fleet with dependable boats.
	There have been several instances of crew issues that have caused cancelled sailings. Also, WSF makes frequent excuses for late sailings due to heavier than normal ferry traffic. This makes absolutely no sense to me. There is a capacity on the ferry.
